

CARLEY AND COMPANY

We develop apparel and sewn products for government agencies and organizations.

APPAREL WIZ
BRINGING PRODUCT TO LIFE

We strive to provide excellent service and achieve a high quality product.

CORE COMPETENCIES

- Comprehensive product development services with 37 years of experience
- Concept to Production: design, technical design, pattern making, grading, marking and manufacturing oversight
- Sourcing of fabric, trims and manufacturers
- Extensive resources
- All supportive services provided by highly trained professionals
- I work with other highly trained professionals to develop sewn products in all categories. Our expertise is in technical, functional apparel and accessories
- Project management

PAST PERFORMANCE

Past performance includes developing product for the North Face, the US Forest Service, the United Nations, Sierra Designs, Tad Gear, Patagonia and Ariat.

BIO

For 37 years I have worked in the sewn product industry. The products I developed ranged from custom apparel for celebrities to uniforms and packs for large organizations. While working for Patagonia early in my career, I established an appreciation for quality over quantity. Also I've found it's not just about the product. Relationship and communication are vital in getting people what they want. I strive for integrity in service and product.
